Separates, if desired, must be ordered in advance of publication. Separates of leading articles will be printed as ordered, of which 50 (without covers) will be furnished *gratis*, the actual cost of the remainder (and covers, if desired) to be paid for by the author. The table below shows the *approximate* cost of separates consisting of plain text or text with line engravings. The actual cost may vary from the figures given, and will depend upon the amount of work in re-making the pages into forms, press work, paper, binding, etc. Separates containing half-tones may be expected to cost somewhat more than the rates given, the increase depending upon the number of cuts and the amount of work required upon them.

THE Atlantic Monthly is the one American magazine which has continued to print month after month the best obtainable discussion of serious questions.

The importance of the subject, not its "popular appeal," decides its appearance in the pages of the Atlantic.

We often hear it said that some article "would never have been printed in any magazine except the Atlantic."

This editorial policy won readers fifty years ago, and is winning and holding them today.

The Atlantic for 1910 will be particularly rich in serious discussion of really important questions. It has already announced a series of papers on "The Decline of Public Confidence in the Newspaper Press." It has undertaken, and is now carrying on, an illuminating discussion of the question of an "American Merchant Marine." It is formulating a series of thoughtful papers on questions of school, college, and university life and discipline. It is about to throw new light on the uncertain history of the Reconstruction Period by the continued publication of the Diary of Gideon Welles, and in its pages Professor Paul S. Reinsch of the University of Wisconsin will print his brilliant series on "Intellectual Currents in the Far East."

Can any one identified with academic life or engaged in intellectual work afford to be without the Atlantic?
